## LONG WIBE WATERFALL

The Long Wibe Waterfall is designed to create a soothing, elegant vibe for your spa experience.

Flowing gently across the surface, this extended waterfall feature combines the calming sound of running water with a vibrant LED lighting system, illuminating your spa in every color to match your mood. It's the perfect combination of tranquility, aesthetics, and modern design—giving your spa that unmistakable Wibe vibe.

## WIBESIDE™ CABINET AND SHELL COLOR

### *Color of shell*

Arctic White is among the most popular colors for spa exteriors. Thanks to their innovations and expertise in casting acrylic, we have developed the Arctic White color for the most modern and attractive spas.

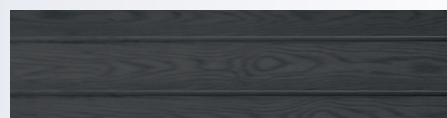

### *Exterior synthetic lining resistant to bad weather*

The synthetic Spa wood-lining effect perfectly matches the hues found in a garden or in minimalist wellness rooms. The lining looks natural and there is no longer a need for regular maintenance of the wood. This exterior coating prolongs the life of your spa lining by several years. Advice from the manufacturer: clean with a damp cloth to maintain its refined appearance.
